

TOPS FOR STANDING DESKS

Our desk tops are available in a wide range of colours, finishes, and sizes to suit any workspace. You can customize your top with optional features such as flip covers, power sockets, USB-A/C ports, or wireless induction chargers, all pre-cut directly at the factory for a perfect fit.

Each top is 25mm thick and made from melamine veneer with a chipboard core, featuring E0-grade materials for low formaldehyde emissions and 1.2 mm PVC edging with rounded corners.

All tops come pre-drilled for quick and easy installation on height-adjustable frames. Custom dimensions can also be cut to size to meet your exact specifications (MOQ applies).

SKU: HAT-Top | **Categories:** [Desks & Tables](#), [Standing Desks](#) |
